

Master Guide: Professional Self-Introduction, Tech Profiling & Present Simple Mechanics

Bahasa Inggris 1 • Pertemuan 1

Dosen Pengampu: Tim Dosen Bahasa Inggris FTIK

Berkas Sumber: inggris_p1_chapter_1_self_intro.pdf
(Chapter I: Self Introduction & Professional Profiling)

Edisi: Akademik 2026/2027 • FTIK Unindra

BAGIAN 1: PENJELASAN & BEDAH MATERI PPT DOSEN (STEP-BY-STEP)

Uraian materi kuliah resmi mengikuti urutan slide presentasi dan topik modul dari dosen pengampu.

BAB 1. THE BIG PICTURE: PRESENT-PAST-FUTURE FORMULA FOR TECH PROFESSIONALS

In international technical interviews, professional networking events (LinkedIn, GitHub), and academic symposiums, delivering a concise elevator pitch is essential. The industry-standard structure is the **Present-Past-Future Formula**:

The 3-Part Pitch Formula:

- PRESENT (Current Status)**: Who you are right now and your current technical domain.
- PAST (Foundation & Experience)**: Projects built, technologies mastered, or challenges overcome.
- FUTURE (Vision & Goals)**: What you aim to contribute, solve, or learn next.

BAB 2. SCRIPT MODEL & INDUSTRY DIALOGUE TRANSCRIPT

Professional Profile Script Sample:

"Good morning, everyone. My name is **Muhammad Haikal**. I am currently an undergraduate student in **Information Systems at Universitas Indraprasta PGRI (Unindra)**. [PRESENT]

Over the past year, I have built web-based digital archive tools and explored algorithm optimization using Pascal and modern JavaScript frameworks. [PAST]

Moving forward, I aim to specialize in scalable full-stack software architecture and cloud database systems to contribute effectively to high-impact enterprise solutions. [FUTURE]"

BAB 3. GRAMMAR FOUNDATION: PRESENT SIMPLE MECHANICS & SUBJECT-VERB AGREEMENT

The Present Simple is the workhorse of technical writing, used to describe **general truths, system specifications, permanent states, and habitual routines**:

Subject Category	Affirmative (+)	Negative (-)	Interrogative (?)	Engineering Example
I / You / We / They (Plural)	S + Verb 1 + Object	S + do not (don't) + V1	Do + S + V1?	"We deploy microservices using Docker containers."
He / She / It (Singular)	S + Verb 1 (s/es) + Object	S + does not (doesn't) + V1	Does + S + V1?	"The PostgreSQL database handles ACID transactions efficiently."

Rules for Adding -s / -es to Third-Person Singular Verbs:

- Verbs ending in *-ch, -sh, -ss, -x, -z, -o*: add **-es** (*watches, pushes, passes, fixes, goes*).
- Verbs ending in *consonant + y*: change y to i and add **-es** (*queries, studies, modifies*).
- Verbs ending in *vowel + y*: simply add **-s** (*plays, displays*).

BAGIAN 2: TAMBAHAN MATERI, INSIGHT & SARAN GURU AI (PENGAYAAN)

Materi pengayaan di luar slide: intuisi first principles, relevansi industri, tips belajar & mencatat, serta bedah jebakan UTS.

PENGAYAAN 1. EXAM TRAPS & TECHNICAL VOCABULARY (ADVERBS OF FREQUENCY)

⚠ Placement of Adverbs of Frequency:

Adverbs of frequency (*always, usually, often, frequently, rarely, never*) must be positioned:

- **BEFORE** main verbs: "The caching server **always** responds in under 10 milliseconds."
- **AFTER** auxiliary / to-be verbs: "The backup cron job is **never** skipped during maintenance."

📁 BAGIAN 3: SUMBER DOKUMEN & RUJUKAN RESMI DOSEN

📁 Berkas Resmi Dosen: `inggris_p1_chapter_1_self_intro.pdf` (Chapter I: Self Introduction & Professional Profiling) (12 Halaman Modul Resmi)

👤 Dosen Pengampu: Tim Dosen Bahasa Inggris FTIK • Program Studi Sistem Informasi FTIK Unindra
